## HOW TO CHANGE "WIFI NAME AND PASSWORD "ON YOUR AFRIMAX DEVICE?

The following steps will show you how you can easily change your WIFI Name and Password on your Afrimax Device:

**STEP 1:** Log into the device on your browser using the given IP Address (as your link) found at the bottom of your Access Point, in this case the IP is **192.168.0.1** (please confirm).

Do it as shown below:

 $\leftrightarrow \rightarrow \mathbb{C}$  (192.168.0.1)

If you are successful, it should take you to the following log in page:

	Basic LTE Informat	ion	Router Information	•		
	IMSI:		Running Time:	18 min(s)		
	Physical Cell ID:		Firmware Version:	6.4.2.2
