

Rollover [roh-oh-ver]

*Noun (when used with Afrimax), **Afrimax Rollover***

To add un-used **Anytime data**, from an expired Afrimax data plan, to new data from a newly subscribed Afrimax data plan for use within the new data plan's validity period

E.g. Afrimax's unique Rollover feature added the un-used data from my expired Special Pro-10 subscription to new data from my new Duo Special Pro-10 subscription

I used 6 GB of my SP-10's 10 GB **Anytime data** allowance. On renewing to Duo SP-10, I got 24 GB of Anytime data! So, 20 GB of new **Anytime data** + 4 GB of Afrimax Rollover data from my previously un-used Anytime data
